Ashley Babbit was with the Antifa group dressed up like Trump supporters. She was leading the way. We don't really know if she was hit by a live round or if she is dead.

Fuck off you idiot. She's dead. She's not Antifa. She was not armed.

There was no 'riot' scene. There was almost a dozen cops (mix of swat, suit, and standard) where it happened.

Some fuckwit 'officer' that the establishment is now protecting, shot an unarmed woman trying to climb through the window.

Things may have been orchestrated, but she was a patriot. Unless you have absolute proof, don't besmirch her name. That's what Republican leadership does.

The way she fell and her arms and the look in her eyes, she got shot.

How do we find out. I only think it's possible because there is no low too low for these "people".

▼ I think it is more likely that she might have been duped by what she thought were fellow Trumpers. E.g. they encouraged her "go jump through the window it's clear!" when they knew there was a dude aiming on the other side screaming for them to go back. Or something like that. The video of her getting shot and bleeding looked real to me. Also, I doubt you get many Antifa sympathizers in the Navy. If it was faked death, they'd rather do it the other way around, i.e. pretend someone from the security, capitol staff or the police got shot.

▼ She's dead. She wasn't LARPIng. She wasn't with no "antifa group".
She was gunned down in cold blood right in front of the cops.

▼ She was 100% shot and 100% a duped Trump supporter. Her photos online show her decked out in trump gear. Her posts on twitter show she's a supporter

▼ Right. I'm not saying the storming of the Capitol wasn't staged, I wasn't there and I wasn't part of either side of it. I'm saying the shot wasn't staged, her death wasn't staged, and that she was duped by ANTIFA to charge in
